

Carlson SurveyGNSS

Carlson SurvNet

Carlson SurvNET can be purchased as a stand alone program or by purchasing Carlson Survey or Survey with embedded AutoCAD (OEM).

Carlson SurvNET is True Network Least Squares and automatically means all horizontal and vertical angles including slope distances. No need to manually mean and input all multiple direct or reverse or closed horizon pairs of angles and distances; SurvNET does this automatically.

SurvNET also automatically weights redundant angle and distances, it applies and reports these new standard errors after adjusting. SurvNET Network Least Squares reports include mean angle and distance splits prior to adjustment, error ellipse reports, and positional tolerance inverting for Alta Survey compliance.

The **SurvNet** program is also included in Carlson Survey, Survey with embedded AutoCAD (OEM) and as part of Civil Suite.

Carlson Year End Specials! Upgrade Point Cloud Basic to Advanced with Maintenance

Includes 1-year of maintenance & FREE training from That CAD Girl

This purchase includes a perpetual license of **Carlson Point Cloud Advanced** and a perpetual license of **IntelliCAD**. A perpetual license, essentially, means that you are purchasing the software instead of renting it for a period of time.

To Purchase: Click [here](#) to Request a Custom Proposal and provide your PC Basic Serial Number

Carlson Self-Study Manual – Field to Finish

That CAD Girl Self Study Manuals are the perfect complement to your purchase of Carlson Software. The books were written when 2013 software was current but still work well with more current versions of the software.

This book can be purchased, here, separately or as a 2-book bundle with the Configuration & Overview of Points Manual.
